EXPERIENCE

ECONET (Omniconnect) | Frontend lead, REACTJS

Frontend Leand & IT supervisor | Feb 2023 – Present, Harare

- Currently an IT supervisor of a team of 17 developers overseeing the design/development of CRM and CRUD projects. Among such projects is a performance management system for the company (Frontend)
- Frontend development of web applications using REACT.js. This includes an online wellness portal for logging health concerns at work
- Assuring IT operations are inline with ISO policy thus helping the company maintain safety and credibility.
- Working closely with the human resources department and developing systems that automate tasks that are done manually such as pay slips distribution, contract renewals etc.

ECONET & LIQUID TELECOMS | Cisco, Troubleshooting, WordPress

Information Systems Support | Feb 2023 – August 2023, Harare

- Developed an online form application that would help with asset registration, doing away physical forms and files
- Was part of the tech lead team that maintained network infrastructure of a campaign that housed over 600 agents
- Assisted clients with network related issues both physically and virtually
- Was part of a team under Liquid Telecoms configuring and debugging network base stations across Harare.

Flavier La Verne | HTML, CSS, JavaScript

Systems Developer | Oct 2022 – Feb 2023, Harare

- Provided web design ideas for clients and the company and built websites for showcasing.
- Provided IT consulting for the company Four Seasons helping them see loopholes in their IT and Tech Department
